1 Who This Is For

Financial entities under DORA keep a register of information on their ICT third-party service providers, in the templates of Commission Implementing Regulation (EU) 2024/2956. This page gives our details for that register, by template and column code, so you can copy them or import the file below.

2 Which Entity to Register

GRC PLUS B.V. contracts with you and provides our services: register it as the ICT third-party service provider. ZYX B.V. is its ultimate parent undertaking. Add it to B_05.01 as well: the template asks you to identify the ultimate parent undertakings of your ICT third-party service providers too. For each entity we give both identifiers, the LEI and the EUID, as Article 3(5) of the Regulation asks.
